## ENERGY FOR THE FUTURE XVI:

### EFFICIENT USE OF ENERGY IN INDUSTRIAL PRODUCTION

Venue: Hall P, room P4, sections c+d  
Expert supervisor: prof. Ing. Jiří Tůma, DrSc., ČVUT Fakulta elektrotechnická  
Organised by: FCC PUBLIC, s. r. o., Pod Vodárenskou věží 4, 182 08 Praha 8,  
Ing. Emil Širůček, tel.: +420 603 847 023, e-mail: emil.sirucek@fccgroup.cz,  
Ondřej Vraný, tel.: +420 734 408 101, e-mail: ondrej.vrany@fccgroup.cz

### Programme:

Energy costs increasingly influence the overall cost of production. Since the energy cannot be replaced completely, only one option remains - to optimize and streamline its use. Companies which take this into account in their strategic planning reduce their operating costs usually within a few months or years and thus gain a significant competitive advantage. Energy-efficient technology should be a priority for companies, whose energy costs represent more than 3% of their production costs. This category includes many small and medium-sized businesses. Effective energy use in the industrial production can save in the short term about 10% of energy and another 15% can be saved in long-term interdisciplinary projects. Return on investment in energy efficiency and other processes are very quick. The measures taken often pay for themselves within the first three years. The spectrum of measures ranges from simple structures organized independently to comprehensive energy efficiency projects, whose implementation requires a helping hand of the companies, providing energy-focused or advisory services. A conference dedicated to the possibilities of energy savings will present concrete ways to improve the energy balance of a company or a building, setting them in a broader technical, legislative and theoretical context.

## AFRICA - NEW MARKETS AND OPPORTUNITIES FOR CZECH EXPORTERS

Venue: Hall E, room E4

Expert supervisor: Exportní garanční a pojišťovací společnost, a.s., Vodičkova 34/701, 111 21 Praha 1, Hana Hikelová, tel.: +420 222 842 015, +420 702 002 935, e-mail: hikelova@egap.cz

Organised by: Exportní garanční a pojišťovací společnost, a.s., Vodičkova 34/701, 111 21 Praha 1, Jan Svoboda, tel.: +420 222 842 023, +420 725 894 190, e-mail: svoboda@egap.cz

Africa represents a tremendous opportunity for Czech exporters in the next 10 years. Plenty of mineral wealth and natural resources, positive demographic trends, improving business environment, infrastructure and overall growth of African economies, these are all reasons why Africa is becoming a very interesting area for investors and exporters from around the world. Historically strong relations of the Czech Republic with many countries in Africa and the good name of Czech companies on this continent may be the ticket to those so far somewhat neglected markets.

### Programme:

- What are the opportunities in the African market; what products / capital goods / services can be successful
- How to find a reliable business partner
- Which countries are suitable to enter the African market
- What are the advantages and risks of doing business in Africa
- What are the legal and cultural aspects of trading in the African market
- How I can the state and supporting state organizations help me
- How to finance export projects and minimize risk of financial losses
